

7 Easy Steps to a Stress-Free Move

A little planning goes a long way. Use this quick guide to keep your next move organized from the first box to the last.

1

Start Early

Begin sorting and decluttering four to six weeks out so packing never feels rushed.

2

Get a Written Quote

Know your costs up front so there are no surprises on moving day.

3

Label Every Box by Room

This alone saves hours during unpacking.

4

Pack an Essentials Bag

Keep medications, chargers, and a change of clothes with you, not on the truck.

5

Confirm Your Dates in Writing

Pickup and delivery windows should be documented, not just verbal.

6

Do a Final Walkthrough

Check every closet, drawer, and cabinet before the crew leaves.

7

Keep Your Inventory List Handy

It is your reference if anything needs to be tracked down after delivery.
